

The husband is the head of the wife,

Any reversal will cause the family to lose peace

The wife is the heart of the husband

Any coldness in affection will deprive the family of joy.

What the wife expects from the husband is love

What the husband looks for in the wife is submission

Frequently expressing gratitude to each other is the fragrance of the household.

Try hard to avoid the first quarrel and ill feeling.

In the event of different opinions, learn to respect the opposite opinion, and find out its reason and feeling

The way of solution must be righteous.

Be willing to resolve differences

Avoid a one-sided sacrifice. Both sides must be ready to take a step backwards.

It is not profitable to both if retreat is done one-sided only.

Do not ever strive, but strive to step down first

Selfishness is the poison that destroys the family.

Whenever you see the weakness of your opposite party, see also his or her strength.

Paying too much attention to the other party's weakness will aggravate a small matter into a big matter.

Whenever you feel troubled, remember your spouse also senses it.

Never broadcast the other party's weakness.

You may be hurt by the other party's weakness, but to talk about it, you deepen the wound.

Hurt in heart may be healed, but speaking out is hard to be recovered.

Do not be disrespectful because of familiarity.

Be diligent in giving thanks

Be watchful of proper dressing, adornment, habit, and speech.

Always be ready to confess and apologize.

It is best to read the Bible and pray together before God every day.

*If newlyweds are able to learn these within three years,  
a blessed marriage is assured.*
